To the Killbit Coin Team on behalf of Mississauga Climate Action,

We are writing to confirm that we have received your generous donation of **500,000 Killbit (KILB) coins** to our **non-profit organization, the Mississauga Climate Action Group (MCA)**. We are deeply grateful to you for financially funding our projects and initiatives, helping us serve our communities, but also for choosing us as the first enterprise to be a part of your uniquely progressive cryptocurrency system. As you know, the MCA group is dedicated to continuously launching, hosting and accomplishing projects pertaining to the preservation and growth of the natural environment. Your generous donation will help us to complete countless projects and we look forward to sharing their progress with you.

We fully support Killbit in the view of the fact that out of the millions of cryptocurrencies which are being traded today, Killbit is the first and only token to establish a system to give back to the planet and our communities. We are glad that KILB is changing the cryptocurrency market to understand why a part of these profits need to go back to our planet and those in need. We hope that Killbit grows as a successful cryptocurrency and inspires many more with a similar objective.

On behalf of everyone at the Mississauga Climate Action Group, we wish to extend our sincere gratitude to the Killbit team for your thoughtful and generous donation. We look forward to seeing the positive and uplifting progress in our rapidly growing world-wide community. We hope that this letter finds you well and wish you all the best. Thank you for your consideration and support.

Our Kindest Regards,

Gerry Ruygrok, Chair
